As an industry-associated Registered Training Organisation (RTO), Ascent Training Solutions (32108) offers something no other RTO offers to our clients.

Best price guaranteed and complimentary airport pick up and drop off, we offer subsidised onsite accommodation for our remote clients.

Established in 2009 as a RTO, Ascent Training Solutions has since grown into one of the leading training providers in the region with an offering of 30+ Nationally Recognised Training programmes, delivered by experienced industry professionals. Our mission is to empower the success of our workforce through practical, engaging, and safety-focused training. Whether you're a seasoned tradie aiming to advance your skills, a business looking to elevate your team's capability, or a newcomer eager to break into Australia's booming construction and mining industries, we're here to make it happen.

At Ascent Training Solutions, we emphasise real-world learning by providing theory alongside hands-on practice. Our new, purpose-built training facility located in Richlands Queensland, supports real site conditions, including working as a team with other operators, machinery, and equipment. This approach ensures every graduate is qualified, confident, and ready for onsite work.

Our new purpose-built training facility has been designed to meet the needs of our clients, delivering nationally recognised training and assessment services for high-risk work licences, earthmoving tickets, and a range of Qualifications from Certificate III to Certificate IV in the civil construction and mining industries. Training can be delivered onsite or at our Richlands Training facility. Additionally, industry and government subsidies are available for selected courses and eligible participants.

Our team goes the extra mile to ensure client satisfaction. This level of service is unique in our industry, and we are proud to work with you to avoid the unnecessary pressure in upskilling. For more information on courses, qualifications, and eligibility for subsidised training, please contact our supportive team on (07) 3865 4926 | 0404 765 828 | bookings@ascent.edu.au

**John Kooyman -
Training Manager**

Q Why should companies and individuals invest in their future with Ascent Training Solutions?

Value for money. We may be a smaller business, but that allows us to truly care about each client and student. Our personalised approach ensures everyone receives the attention and support they need to succeed.

A

Q How does Ascent Training Solutions go out of its way to ensure client satisfaction and make sure they achieve their goals?

We offer services that go beyond typical training programmes. With one-on-one training and ongoing support, we make sure our students never feel like they're just part of a process. We create a relaxed, enjoyable learning environment because we believe that when people enjoy learning, they achieve more.

A

Q What makes this level of service unique in your industry?

This level of personal attention and care has become a forgotten service in our industry. We stand out because we prioritise the individual needs of each student and client, ensuring their experience is as comfortable and rewarding as possible.

A

Q As a small Queensland business, what 'big company' moves is Ascent Training Solutions making?

We continue to expand our scope by adding specialised courses to meet the growing needs of our clients. Additionally, we offer complementary services such as airport pick up/drop off and initiatives like Pizza Wednesdays and onsite accommodation, all aimed at creating a welcoming and supportive environment.

A

Q Finally, how is Ascent Training Solutions achieving its mission to empower the success of its workforce through practical, engaging, and safety-focused training?

Empowering our workforce is at the core of what we do. It's in our DNA. Half of our trainers and assessors hold a Certificate IV in Work Health and Safety, and every single one of them has over 20 years of industry experience. This combination of expertise and practical knowledge ensures our students are not only skilled but are also trained with a strong focus on safety and real-world applications.

A

Q Why should companies and individuals invest in their future with Ascent Training Solutions?

We provide high-quality training, and all of our trainers bring a wealth of industry experience to the table. What sets us apart is that we're always prepared to go the extra mile for our students, ensuring they get the best possible learning experience.

A

Q How do you and your team, as Trainers/Assessors, go out of your way to ensure client satisfaction and make sure they achieve their goals?

We make a point to truly listen to and observe our students as they work through their tasks. When needed, we spend one-on-one time with them to ensure they feel supported and confident in their abilities.

A

Q What makes this level of service unique in your industry?

Our students leave our site with not only the skills they need but also the confidence to perform their tasks on the job. I always encourage them to reach out to me if they encounter challenges at work – I'm happy to offer advice whenever they need it. This level of ongoing support is rare in our industry.

A

Q What makes you proud to work for Ascent Training Solutions?

We truly go the extra mile for our students. Here, they aren't just numbers on a seat – they're individuals whose success matters to us.

A

Q Finally, what does it take to be a Trainer/Assessors who is able to empower the success of the workforce through practical, engaging, and safety-focused training?

It takes flexibility in the delivery of your training and willingness to adapt to each student's needs. Being open to changing your methods ensures every student has the opportunity to succeed and reach their goals.

**Tileah Miles -
RTO Manager**

**Robbie Watson -
Client**

Q Why should companies and individuals invest in their future with Ascent Training Solutions?

We do it differently. We're a team that genuinely wants to see our clients succeed. There's something special happening here, but the best way to understand it is to come and experience it for yourself.

A

Q How do you and your team go out of your way to ensure client satisfaction and make sure they achieve their goals?

It's all about the people we employ; it's who we are. Just the other day, I was onsite picking up a student's ID so they could be assessed for their high risk work licence the next day. While it's not something we can offer every time, when we can help, we will. That's the level of care we provide – because their success is our success.

A

Q What makes this level of service unique in your industry?

The lost art of customer service is alive and well at Ascent Training Solutions. Here, the training isn't a production line —you'll get trainers and assessors with over 20 years of real-world experience and an admin team that's handpicked to help you succeed from day one. Sadly, this kind of personal touch is rare in our industry, but that's exactly what makes us stand out.

A

Q As a small Queensland business, what 'big company' moves is Ascent Training Solutions making?

We stay competitive with our pricing and offer complementary services like airport pickup, drop-off, and even accommodation. Plus, we pride ourselves on staying flexible – always adapting to industry demands and the evolving needs of our clients.

A

Q Finally, What makes you proud to work for Ascent Training Solutions?

I've been with Ascent Training Solutions for almost nine years now, and in my management role, I've had the opportunity to shape the company's goals and services into something unique. It's been an incredible journey, aligning the company's mission not just with Kevin's vision but also with my own values. That's what makes me proud to be part of this team.

A

Q Why should companies and individuals invest in their future with Ascent Training Solutions?

Honestly, the other training companies I've used in the past don't even come close. That's 100 percent the truth.

A

Q How does Ascent Training Solutions go out of its way to ensure client satisfaction and make sure they achieve their goals?

Ascent Training Solutions went above and beyond for me. I flew in from out of state, and Kevin himself picked me up from the airport and took me to their accommodation facility. That level of personal service really stood out.

A

Q What makes this level of service unique?

It's the convenience. Having onsite accommodation and being able to start your course right away in the morning is a game changer. Everything is right there – super convenient.

A

Q What keeps you coming back to Ascent Training Solutions to upskill?

What keeps me coming back is how everything is set up. The training facility and accommodation being in one place is just too convenient. Plus, Kevin, John, and Robbie are great guys – I connected with them right away. That's why I'll always come back for any future training.

A

Q What are three words to describe Ascent Training Solutions, their trainers, and staff?

Positive, polite, and professional.
